(Authoring tool user perspective)

- *(i.e. someone creating a course using the authoring tool)*
- Legend
  - MoSCoW rating
    - Must
    - Should
    - Could
    - Won't
  - Release
    - v0.1
      - Audience: internal to production companies who have developers
    - v1.0
      - Audience: Non-technical end user
  - Example
    - M 1.0 = Must for version 1.0
    - C 0.1 = Could (nice to have) for version 0.1

Super Administrator

- --- ***Installation***
- SPR-INST-001: Able to run a minimal interaction system installation
  - M 0.1
  - Default single tenancy
- --- ***Tenancy management***
- SPR-TEN-001: Able to CRUD tenancies
  - M 1.0
- SPR-TEN-002: Able to manage cross-tenancy user access
  - S 1.0
  - Should as can do multiple user accounts
- --- ***APIs***
- SPR-API-001: Able to enable/disable APIs / API plug-ins
  - M 1.0
- SPR-API-002: Able to add new plug-in webservice APIs
  - M 1.0
  - Required for LP catalogue, third party integration
- SPR-API-003: Able to remove added plug-in webservice APIs
  - M 1.0
- --- ***Quotas***
- SPR-QUO-001: Able to set number of users quota for tenancies
  - C 1.0
- SPR-QUO-002: Able to set and change number of courses/projects quota for tenancies
  - W
- SPR-QUO-003: Able to set file storage limit quotas for tenancies
  - C 1.0
- SPR-QUO-004: Able to set and change bandwidth limit quotas for tenancies
  - W 1.0
- SPR-QUO-005: Able to run usage reports on quote usage for tenancies
  - M 1.0
- --- ***Policies***
- SPR-POL-001: Able to set and change file upload limits
  - M 1.0
- SPR-POL-002: Able to define user creation options for tenancies
  - M 1.0
- SPR-POL-003: Able to define system role creation options for tenancies
  - M 1.0
- SPR-POL-004: Able to define plug-in management options for tenancies
  - S 1.0
- --- ***Backup***
- SPR-BCK-001: Able to configure automatic system backup
  - C 1.0
- --- ***Plug-in management***
- SPR-PLG-001: Able to install/uninstall plug-ins
  - M 0.1
- SPR-PLG-002: Able to install/uninstall authoring tool themes
  - W 1.0
- SPR-PLG-003: Able to install/uninstall language packs
  - W 1.0
- SPR-PLG-004: Able to upgrade the Adapt authoring tool / Adapt Framework
  - M 0.1
- SPR-PLG-005: Able to create import processing plugins (e.g. import from old Learning Pool tool format)
  - M 0.1
  - e.g. write 'import' as a plugin
- SPR-PLG-006: Able to validate an installed plug-in
  - M 0.1
- SPR-PLG-007: Able to run a system health-check
  - S 1.0
- SPR-PLG-008: Able to integrate for user authentication via a webservice API
  - C 1.0
  - **Reworded**
- SPR-PLG-009: Able to tell me what plugins/components are installed on the system
  - M 0.1
  - **Reworded**

- --- ***Way of working***
- ALL-WOW-001: Able to author online without downloading any files
  - M 0.1
- ALL-WOW-002: Able to see a dynamic landing page that shows me navigation options based upon my role and capabilities
  - M 0.1
- ALL-WOW-003: Able to use wizards to help guide me through the system
  - C 1.0
- ALL-WOW-004: Able to have context sensitive help available throughout the system
  - S 1.0
- --- ***Login***
- ALL-LGN-001: Able to login to the system using an id and password
  - M 0.1
- ALL-LGN-002: Able to change my password
  - M 0.1
- ALL-LGN-003: Able to reset my password securely
  - M 1.0
- --- ***System roles / My work***
- ALL-ROL-001: Able to hold multiple roles across multiple tenancies
  - S 1.0
- ALL-ROL-002: Able to get an overview of the roles held across tenancies in the system
  - W 1.0
  - Add requirement to select tenancy more important
- ALL-ROL-003: Able to view a dashboard of courses/projects I work on and see the status for each project
  - M 0.1
  - Separate status out
    - C 1.0
- ALL-ROL-004: Able to get an overview of activity and tasks on courses/projects I work on
  - C 1.0
- ALL-ROL-005: Able to see a history of projects worked on
  - S 1.0
  - Most recently used, e.g. recent docs in Word
  - History covered by system logs -> visible to the user?
- --- ***Profile***
- ALL-PRO-001: Able to set and change my personal details
  - M 1.0
- ALL-PRO-002: Able to set and change my email address
  - M 0.1

- All users
  - ALL-PRO-003: Able to set and change an avatar image
    - C 1.0
  - ALL-PRO-004: Able to set the timezone
    - Include time formatting to enable US/UK spelling
    - S 1.0
  - ALL-PRO-005: Able to set the language
    - W 1.0
  - ALL-PRO-006: Able to set the email format (HTML/plain)
    - W 1.0
  - ALL-PRO-007: Able to set appearance preferences
    - W 1.0
  - ALL-PRO-008: Able to toggle/configure profile visibility
    - W 1.0
  - --- ***Collaboration***
  - ALL-COL-001: Able to invite collaborators to projects I own (or have sufficient permissions to)
    - M 1.0
    - Fine grained permissions + giving users the ability to control that
    - We consider this applies to system accounts
  - ALL-COL-002: Able to see all collaborators on a course/project
    - M 1.0
  - ALL-COL-003: Able to remove collaborators from a project I own (or have sufficient permissions to)
    - M 1.0
  - ALL-COL-004: Able to determine the editing rights for collaborators of courses/projects I own (or have sufficient permissions to)
    - S 1.0
  - ALL-COL-005: Able to leave a course/project
    - C 1.0
  - ALL-COL-006: Able to exchange messages with other collaborators at course/project level (e.g. course/project wall)
    - W 1.0
  - ALL-COL-007: Able to request review/sign-off from collaborators on projects I own (or have sufficient permissions to)
    - W 1.0
  - ALL-COL-008: Able to accept/reject tracked changes on projects I own (or have sufficient permissions to)
    - W 1.0
  - ALL-COL-009: Able to share guest access (for non-system users) for review on projects I own (or have sufficient permissions to)
    - M 1.0
  - ALL-COL-010: Able to invite collaborators who don't already have system accounts
    - S 1.0
  - ALL-COL-011: Able to link directly to a specific component within a course
    - M 1.0
- Tenancy Administrator
  - --- ***Tenancy Configuration***
  - ADM-TEN-001: Able to change the authoring tool theme
    - W 1.0
  - ADM-TEN-002: Able to CRUD system roles from capabilities in the scope of a tenancy
    - M 1.0
  - ADM-TEN-003: Able to assign/unassign tenancy-scope system roles to users within the tenancy
    - M 1.0
  - ADM-TEN-004: Able to set and change default values for courses/projects
    - C 1.0
  - ADM-TEN-005: Able to CRUD users within the tenancy
    - M 1.0
  - ADM-TEN-006: Able to view system logs (users actions) within the scope of a tenancy
    - M 1.0
  - ADM-TEN-007: Able to manage course/project ownership
    - M 1.0
  - ADM-TEN-008: Able to freeze/lock/unlock a courses/projects to prevent/enable changes
    - C 1.0
  - ADM-TEN-009: Able to apply policy values for the tenancy within the range determined by the super administrator
    - C 1.0
  - ADM-TEN-010: Able to see a usage dashboard against quotas (users, courses/projects, file storage, bandwidth used etc).
    - S 1.0
  - ADM-TEN-011: Able to choose which installed language pack plug-ins to make available to the tenancy users
    - W 1.0
  - ADM-TEN-012: Able to choose which installed component plug-ins to make available to the tenancy users
    - C 1.0
  - ADM-TEN-013: Able to choose which installed extension plug-ins to make available to the tenancy users
    - C 1.0
  - ADM-TEN-014: Able to choose which installed publishing options to make available to the tenancy users
    - C 1.0
  - ADM-TEN-015: Able to turn versioning on/off
    - W 1.0
  - ADM-TEN-016: Able to configure system notification behaviour
    - W 1.0
    - Needs further exploration
  - ADM-TEN-017: Able to enable/disable workflow stages and steps
    - W 1.0
  - ADM-TEN-018: Able to determine the contents of the L&D Manager dashboard
    - W 1.0
  - ADM-TEN-019: Able to turn guest user access to the tenancy on/off
    - M 1.0
    - Also applies to super admin
  - ADM-TEN-020: Able to turn the ability to make tracked changes during reviews on/off
    - W 1.0
  - ADM-TEN-021: Able to determine whether collaboration invites can be sent to system users only or also to external users
    - S 1.0
  - ADM-TEN-022: Able to configure plug-ins for the scope of the tenancy and per project
    - C 1.0
  - ADM-TEN-023: Able to manage the scope assignments of re-usable items within the asset management realm
    - W 1.0
  - ADM-TEN-024: Able to set the password policy
    - M 1.0
  - ADM-TEN-025: Able to set the account expiry policy
    - C 1.0
  - Look and feel
    - --- ***Themes***
    - CCR-LF-001: Able to choose a standard theme from a range of options
      - M 1.0
    - CCR-LF-002: Able to choose a custom theme
      - M 1.0
    - --- ***Styles***
    - CCR-LF-003: Able to modify basic theme colour settings
      - M 1.0
    - CCR-LF-004: Able to modify high-level padding and spacing settings
      - M 1.0
    - CCR-LF-005: Able to set standard font face for the course
      - M 1.0
    - CCR-LF-006: Able to set the standard font size for the course
      - M 1.0
    - CCR-LF-007: Able to embed / package specific fonts / character sets / symbols
      - W 1.0
    - CCR-LF-008: Able to define alternative, fall-back fonts
      - W 1.0
      - Use font family as part of the theme
    - --- ***Background images***
    - CCR-LF-009: Able to choose background image for the entire course
      - M 1.0
    - CCR-LF-010: Able to choose background images for menus
      - M 1.0
    - CCR-LF-011: Able to choose background images for pages
      - M 1.0
    - CCR-LF-012: Able to choose background images for articles
      - M 1.0
    - CCR-LF-013: Able to insert a transparent placeholder which allows learners to see the background graphic
      - M 1.0
    - --- ***Language / display options***
    - CCR-LF-014: Able to set the language for a course
      - W 1.0
      - Default to English
    - CCR-LF-015: Able to define the alternative, high-contrast look & feel
      - W 1.0
      - Built-in part of the framework
    - CCR-LF-016: Able to set the display layout to right-to-left (RTL)
      - W 1.0
      - Put out to community to contribute resource

- Requirements
  - Authoring Tool
    - Asset management
      - --- ***Browsing the library***
      - CCR-AMGMT-001: Able to browse all stored assets that my role/capabilities allow
        - W 1.0
      - CCR-AMGMT-002: Able to search assets based on metadata
        - W 1.0
      - CCR-AMGMT-003: Able to manage the scope of access for snippets and courses / projects shared
        - W 1.0
      - CCR-AMGMT-004: Able to set access level to 'myself only'
        - W 1.0
      - CCR-AMGMT-005: Able to set access level to 'this course only'
        - W 1.0
      - CCR-AMGMT-006: Able to set access level to 'my organisation'
        - W 1.0
      - CCR-AMGMT-007: Able to set access level to 'public (i.e. everyone who uses the system)'
        - W 1.0
      - --- ***Background images***
      - CCR-AMGMT-008: Able to upload background images
        - W 1.0
      - CCR-AMGMT-009: Able to change (re-upload) background images
        - W 1.0
      - CCR-AMGMT-010: Able to see which courses would need to be republished for background image changes to be reflected
        - W 1.0
      - CCR-AMGMT-011: Able to delete background images
        - W 1.0
      - CCR-AMGMT-012: Able to add metadata to background images
        - W 1.0
      - CCR-AMGMT-013: Able to organise background images into categories
        - W 1.0
      - CCR-AMGMT-014: Able to search background images based on metadata
        - W 1.0
      - CCR-AMGMT-015: Able to report on usage of background images
        - W 1.0
      - --- ***Themes***
      - CCR-AMGMT-016: Able to upload themes
        - M 1.0
      - CCR-AMGMT-017: Able to change (re-upload) themes
        - M 1.0
      - CCR-AMGMT-018: Able to see which courses would need to be republished for theme changes to be reflected
        - C 1.0
      - CCR-AMGMT-019: Able to delete themes
        - M 1.0
      - CCR-AMGMT-020: Able to add metadata to themes
        - W 1.0
      - CCR-AMGMT-021: Able to organise themes into categories
        - W 1.0
      - CCR-AMGMT-022: Able to search themes based on metadata
        - W 1.0
      - CCR-AMGMT-023: Able to report on usage of themes
        - C 1.0
      - --- ***Content images***
      - CCR-AMGMT-024: Able to upload content images
        - W 1.0
      - CCR-AMGMT-025: Able to change (re-upload) content images
        - W 1.0
      - CCR-AMGMT-026: Able to see which courses would need to be republished for content image changes to be reflected
        - W 1.0
      - CCR-AMGMT-027: Able to delete content images
        - W 1.0
      - CCR-AMGMT-028: Able to add metadata to content images
        - W 1.0
      - CCR-AMGMT-029: Able to organise content images into categories
        - W 1.0
      - CCR-AMGMT-030: Able to search content images based on metadata
        - W 1.0
      - CCR-AMGMT-031: Able to report on usage of content images
        - W 1.0
      - --- ***Templates / snippets (pages, articles, blocks and components)***
      - CCR-AMGMT-032: Able to browse all re-usable snippets
        - W 1.0
      - CCR-AMGMT-033: Able to add re-usable snippets to categories
        - W 1.0
      - CCR-AMGMT-034: Able to remove re-usable snippets from categories
        - W 1.0
      - CCR-AMGMT-035: Able to delete re-usable snippets
        - W 1.0
      - --- ***Central course/project library***
      - CCR-AMGMT-036: Able to preview visible courses
        - W 1.0
      - CCR-AMGMT-037: Able to request permission to clone
        - W 1.0
      - CCR-AMGMT-038: Able to grant / reject permission to clone
        - W 1.0
      - CCR-AMGMT-039: Able to provide terms and conditions and request signature
        - W 1.0
      - CCR-AMGMT-040: Able to clone a course / project from the central library into the user's tenancy (open in my tool)
        - W 1.0
      - Able to plug in an e-commerce gateway
        - W 1.0
    - Course creation / management
      - --- ***Categories***
      - CCR-CRS-001: Able to CRUD categories
        - S 1.0
      - CCR-CRS-002: Able to CRUD subcategories at any level
        - S 1.0
      - --- ***Courses/projects***
      - CCR-CRS-003: Able to CRUD courses
        - M 0.1
      - CCR-CRS-004: Able to assign courses to categories
        - S 1.0
      - CCR-CRS-005: Able to remove courses from categories
        - S 1.0
      - CCR-CRS-006: Able to view the status and details of a course
        - M 0.1
      - CCR-CRS-007: Able to set the status and workflow stage
        - S 1.0
      - CCR-CRS-008: Able to copy a course (duplicating)
        - S 0.1
      - CCR-CRS-009: Able to create (tag) a version of a course
        - W 1.0
      - CCR-CRS-010: Able to roll back to a previous version of a course
        - W 1.0
      - CCR-CRS-011: Able to show/hide a course
        - C 1.0
      - CCR-CRS-012: Able to lock a course (i.e. allow/prevent pro-active access for non-collaborators)
        - C 1.0
      - CCR-CRS-013: Able to archive a course (store latest version in compressed format with history / user permissions)
        - W 1.0
      - CCR-CRS-014: Able to export a course
        - M 0.1
        - Excluding history and permissions
      - CCR-CRS-015: Able to import a course
        - M 0.1
      - CCR-CRS-016: Able to share a course in the central course/project library
        - W 1.0
      - --- ***Metadata***
      - CCR-CRS-017: Able to add course metadata (including duration etc)
        - M 0.1
      - CCR-CRS-018: Able to tag courses with useful information
        - Same as CCR-CRS-017
        - **Remove**
      - CCR-CRS-019: Able to filter and search for courses/projects using search terms
        - S 1.0

- Content Creator
  - Course structure
    - --- *Pages / hierarchy*
    - CCR-CSTR-001: Able to CRUD a page
      - M 0.1
    - CCR-CSTR-002: Able to arrange pages into a hierarchy / sequence
      - M 0.1
    - CCR-CSTR-003: Able to move a page
      - M 0.1
    - CCR-CSTR-004: Able to copy a page
      - M 0.1
    - CCR-CSTR-005: Able to paste a copied page
      - M 0.1
    - CCR-CSTR-006: Able to define a page as a re-usable snippet
      - W 1.0
    - CCR-CSTR-007: Able to insert a re-usable page snippet
      - W 1.0
    - --- *Articles*
    - CCR-CSTR-008: Able to CRUD an article
      - M 0.1
    - CCR-CSTR-009: Able to copy an article
      - M 0.1
    - CCR-CSTR-010: Able to cut an article
      - M 0.1
    - CCR-CSTR-011: Able to paste a cut/copied article
      - M 0.1
    - CCR-CSTR-012: Able to move an article within a page
      - M 0.1
    - CCR-CSTR-028: Able to move an article across pages
      - C 1.0
    - CCR-CSTR-013: Able to define an article as a re-usable snippet
      - W 1.0
    - CCR-CSTR-014: Able to insert a re-usable article snippet
      - W 1.0
    - --- *Blocks*
    - CCR-CSTR-015: Able to CRUD a block
      - M 0.1
    - CCR-CSTR-016: Able to copy a block
      - M 0.1
    - CCR-CSTR-017: Able to paste a copied block
      - M 0.1
    - CCR-CSTR-018: Able to move a block between articles within a page
      - M 0.1
    - CCR-CSTR-019: Able to define a block as a re-usable snippet
      - W 1.0
    - CCR-CSTR-020: Able to insert a re-usable block snippet
      - W 1.0
    - --- *Components*
    - CCR-CSTR-021: Able to CRUD a component
      - M 0.1
    - CCR-CSTR-022: Able to pick a component from a library of components
      - M 0.1
    - CCR-CSTR-023: Able to copy a component
      - M 0.1
    - CCR-CSTR-024: Able to paste a copied component
      - M 0.1
    - CCR-CSTR-025: Able to move a component
      - M 0.1
    - CCR-CSTR-026: Able to define a component as a re-usable snippet
      - W 1.0
    - CCR-CSTR-027: Able to insert a re-usable component snippet
      - W 1.0
    - CCR-CSTR-029: Able to include any existing component as a triggered component
      - M 0.1
  - Navigation
    - --- *Menus*
    - CCR-MEN-001: Able to choose a generic menu from a range of options
      - M 1.0
      - Excludes multiple standard options
    - CCR-MEN-002: Able to send learners straight to content (bypass menu)
      - M 0.1
    - CCR-MEN-003: Able to upload a custom menu
      - M 1.0
    - CCR-MEN-004: Able to organise navigation into deep scrolling
      - M 0.1
    - CCR-MEN-005: Able to organise navigation into lateral scrolling
      - C 0.1
    - CCR-MEN-006: Able to lock navigation to the next block dependent on block completion
      - M 0.1
    - CCR-MEN-007: Able to lock navigation between articles dependent on block completion
      - M 0.1
  - Tracking
    - --- *Tracking set-up*
    - CCR-TRK-001: Able to configure what constitutes course completion
      - M 0.1
      - Based on on two simple variables
    - CCR-TRK-002: Able to choose tracking standard (SCORM / Tin Can)
      - W 1.0
      - SCORM 1.2 only
    - CCR-TRK-003: Able to choose 'no tracking' option
      - M 0.1
    - CCR-TRK-004: Able to toggle and configure the 'connection lost' message
      - M 0.1
    - CCR-TRK-005: Able to toggle bookmarking (returning users to the location from where they exited the last session)
      - W 0.1
    - CCR-TRK-006: Able to toggle progress display on/off
      - W 0.1
  - Data entry / editing
    - --- *Way of working*
    - CCR-WOW-001: Able to build content quickly without advanced technical expertise
    - CCR-WOW-002: Able to see only the necessary data entry fields by default
    - CCR-WOW-003: Able to undo changes immediately in the project
    - CCR-WOW-004: Able to immediately preview my changes on multiple devices
    - CCR-WOW-005: Able to freeze/lock/unlock a content item to prevent changes
    - CCR-WOW-006: Able to resume editing a course from the same point (component; block) that I was a when I last saved and closed it
    - CCR-WOW-007: Able to edit inline whilst previewing output
    - --- *Text content*
    - CCR-WOW-008: Able to add textual content with basic formatting
    - --- *Images*
    - CCR-WOW-009: Able to add content images to relevant components
    - CCR-WOW-010: Able to add alternative text to content images
    - CCR-WOW-011: Able to upload multiple version of a graphic for use in different contexts
    - CCR-WOW-012: Able to resize images
    - CCR-WOW-013: Able to crop images
    - CCR-WOW-014: Able to compress images
    - --- *Media files*
    - CCR-WOW-015: Able to add audio files to relevant components
    - CCR-WOW-016: Able to add transcripts for components which have an audio track
    - CCR-WOW-017: Able to add a video files to relevant components
    - CCR-WOW-018: Able to embed Captivate files
    - --- *Configuration options*
    - CCR-WOW-019: Able to set the configuration options to determine component behaviour (where applicable)
    - --- *Languages, device-specific alternatives*
    - CCR-WOW-020: Able to add alternative language text content to a course
    - CCR-WOW-021: Able to add alternative language audio/video/imagery to the course
    - CCR-WOW-022: Able to provide device-specific content alternatives
  - Learner support
    - CCR-LSUP-001: Able to add/remove file resources
    - CCR-LSUP-002: Able to add/remove the glossary of terms
    - CCR-LSUP-003: Able to CRUD glossary terms and explanations
    - CCR-LSUP-004: Able to include/turn off the search feature
  - Overrides
    - CCR-OVR-001: Able to add a ZIP archive, which will be extracted as part of the publishing process and override core Adapt code files
    - CCR-OVR-002: Able to remove the ZIP archive

- Assessment
  - --- ***Assessment configuration***
  - CCR-ASSM-001: Able to turn an article into an assessment
  - CCR-ASSM-002: Able to remove assessment elements from an article
  - CCR-ASSM-003: Able to set the passmark
  - CCR-ASSM-004: Able to set which questions count towards the assessment score
  - CCR-ASSM-005: Able to determine whether the assessment can be re-taken
  - CCR-ASSM-006: Able to determine navigation behaviour during the assessment
  - CCR-ASSM-007: Able to determine assessment prerequisites / entry criteria
  - CCR-ASSM-008: Able to provide end of assessment feedback
  - CCR-ASSM-009: Able to set graduated feedback (number and range of feedback bands)
  - CCR-ASSM-010: Able to use any question component as part of an assessment
  - CCR-ASSM-011: Able to step-lock the assessment
  - CCR-ASSM-012: Able to inform the learner about potential data loss if they navigate away from an assessment
  - --- ***Questionbank***
  - CCR-ASSM-013: Able to group questions into banks around subject areas
  - CCR-ASSM-014: Able to configure how many questions will be displayed per bank
  - CCR-ASSM-015: Able to configure mandatory questions for each bank
  - CCR-ASSM-016: Able to randomise the display order of questions
  - CCR-ASSM-017: Able to randomise the order and choice of questions
  - CCR-ASSM-018: Able to signpost to the learner which subject areas they need to revisit as part of the post assessment feedback
- System validation
  - CCR-SVAL-001: Able to run a system validation over my course/project content files and see a log of any system readable errors
  - CCR-SVAL-002: Able to run a system requirements report (e.g. browser spec) for the course based on the metadata for the components and plug-ins used
  - CCR-SVAL-003: Able to generate a diagnostic report of my project (length, level of interactions etc)
- Publishing
  - CCR-PUB-001: Able to publish a project that produces SCORM 1.2 conformant tracking
    - M 0.1
  - CCR-PUB-002: Able to export a course as a SCORM zip file
  - CCR-PUB-003: Able to publish my project as a Tin Can package
  - CCR-PUB-004: Able to publish the course in a non-tracking web format
  - CCR-PUB-005: Able to publish content in a compressed / minified format
  - CCR-PUB-006: Able to publish the course in an uncompressed format
  - CCR-PUB-007: Able to include the version / revision number in the published course for reference
- Translation
  - CCR-TRAN-001: Able to export all language content in a packaged format suitable for translation agencies to work with
  - CCR-TRAN-002: Able to import a translated language content package into the same course
  - CCR-TRAN-003: Able to import a translated language content package as a new course

- Developer
  - AUTH-DEV-001: Able to upload files to override core code
  - AUTH-DEV-002: Able to test the effect of overrides in preview
  - AUTH-DEV-003: Able to turn debugging of the authoring tool on / off
  - AUTH-DEV-004: Able to publish the content uncompressed (duplicate)
  - AUTH-DEV-005: Able to embed HTML / JavaScript in suitable places
  - AUTH-DEV-006: Able to pull in and test plug-ins
  - AUTH-DEV-007: Able to see a technical log of course actions in preview mode (including tracking)
- Reviewer
  - --- ***Issues overview***
  - AUTH-REV-001: Able to see a complete list of issues and comments
  - AUTH-REV-002: Able to search and filter list of changes/comments
  - AUTH-REV-003: Able to add additional detail to a comment / change
  - AUTH-REV-004: Able to remove a comment change
  - AUTH-REV-005: Able to change the status of a comment / change
  - AUTH-REV-006: Able to navigate to the place where the comment / change was made
  - AUTH-REV-007: Able to export all comments / changes to a printable format
  - --- ***Reviewing / raising issues***
  - AUTH-REV-008: Able to launch content in preview mode on multiple device types
  - AUTH-REV-009: Able to raise issues / make comments while previewing the course
  - AUTH-REV-010: Able to view comments and tracked changes in context while previewing the course
  - AUTH-REV-011: Able to make tracked changes in the content
  - AUTH-REV-012: Able to see all the textual content in sequence (not in published form)
  - --- ***Sign-off***
  - AUTH-REV-013: Able to sign-off a course/project during a review cycle
  - --- ***Notifications***
  - AUTH-REV-014: Able to receive notifications outside of the system as and when updates are made to issues / messages
- L&D Manager
  - AUTH-LND-001: Able to see a dashboard of all current content projects
  - AUTH-LND-002: Able to see project status, level of activity, issues list and collaborators for each project
  - AUTH-LND-003: Able to search the catalogue of projects
  - AUTH-LND-004: Able to change/override project ownership and roles
  - AUTH-LND-005: Able to generate a high-level system usage report against policy rules
- Guest User
  - AUTH-GST-001: Able to enter the system without having to create a system account
  - AUTH-GST-002: Able to view projects which are visible to guest users
  - AUTH-GST-003: Able to view projects, which have been shared with the guest user's email address
- Demonstrator / Trainer
  - AUTH-DEMO-001: Able to give clients (guest users) read-only access to view selected projects for a limited period of time
  - AUTH-DEMO-002: Able to set auto-expiry for guest accounts
  - AUTH-DEMO-003: Able to demonstrate a selected subset of content in a clean looking, branded environment (e.g. company theme)
  - AUTH-DEMO-004: Able to create temporary courses for training which are reset or removed automatically after a specified time period
  - AUTH-DEMO-005: Able to enable guest users with a subset of Content Creator permissions on selected demo courses/projects
